Guidelines on Group Technical Report – S15

Term 3 AY 2025-2026

ITSYOPS BULLETIN #1 Guidelines on Group Technical Report

Hybrid/ Sessions M/H : 730AM – 9AM

A. Date and time – Two Cycle

Date / Time	Group	Topic
Week # 3 May 21, 2026 *730AM to 8AM *8:05AM to 835AM	Group 1 Group 2	Information Technology and Systems Operations Problem Management in IT and System Operations
Week # 4 June 4, 2026 *730AM to 8AM *8:05AM to 835AM	Group 3 Group 4	Request Fulfillment and Service Request Access Management
Week # 5 June 11, 2026 *730AM to 8AM	Group 5 Lecturer	Change Management and Service Management Summary of ITIL Framework (Recorded)
Week 6 June 11, 2026 *8:05AM to 835AM	Group 1 Cycle 2	Release Management
Week 7 June 18. 2026 *730AM to 8AM	Group 2 Cycle 2	Availability Management
Week 8 June 18. 2026 *8:05AM to 835AM	Group 3 Cycle 2	Capacity and Performance Management
Week 10 July 9, 2026 *730AM to 8AM *805AM to 835A,	Group 4 Group 5 Cycle 2	IT Asset Management Continual Service Improvement
Week 11 July 11, 2026 730AM to 8AM	Lecturer	Service Transition (Release and Deployment and Service Knowledge (SKMS) Summary of ITIL Service Lifecycle

B. Instruction and Reminders

1. **Attendance:** Attendance is mandatory for all members during their scheduled group presentation. Please ensure punctuality to maintain academic professionalism and fulfill all course requirements.
2. **Lecture and Group presentation**
*Group **Technical Reports:** The scheduled dates and times for these reports are strictly dedicated to **live group presentations**, which will be recorded.

DEPARTMENT OF COMPUTER TECHNOLOGY

***Self-Paced Supplemental Learning:** While presentation sessions are mandatory, students are highly encouraged to watch the **pre-recorded lectures** corresponding to the topics listed in the syllabus to stay current with the course material.

3. **Handouts and Copy of Group Technical Report** – The handouts will be posted to Group spreadsheet every Monday on or before 4PM. This will provide time for the other group to read and conduct a peer review.

C. Group Technical report (Outline – Template) for presentation - The following outline is provided for your technical report. Utilize the syllabus materials for theoretical principles; case studies will be distributed via the class beadle.

Slide 1: Title Slide

- Title: [Technical Topic Name, e.g., Cloud Infrastructure Automation]
- Course: IT System Operations (SYSOPER)
- Group Members: [List Names]
- University: De La Salle University - College of Computer Studies

Slide 2 Topic content (Based on the group technical report assignment)

- Clear breakdown of what the audience will learn.
- Goal: Establish "logical thought" and "clarity" from the start.

Slide 3: Introduction & Problem Context

- Define the technical topic within the scope of IT System Operations.
- Why is this topic critical for modern IT systems? (e.g., uptime, scalability, or security).

Slide 4–6: Review of Related Literature (RRL)

- Pull content from "up-to-date reliable sources".
- Slide 4: Current industry standards (e.g., ISO/IEC 20000 or ITIL 4 frameworks).
- Slide 5: Analysis of recent research or whitepapers (2023–2026).
- Slide 6: Direct citations on-slide to prove the "quality of review".

Slide 7–9: Technical Deep Dive (Core Content)

- Case study : Utilize the assigned case study to present the technical deep dive
- Slide 7: System Architecture/Process Flow.

DEPARTMENT OF COMPUTER TECHNOLOGY

- *Visual:* * Slide 8: Technical Components (Tools, Software, or Hardware involved).

Slide 9: Implementation Workflow (How it works in a live environment?)

Slide 10: Analytical Case Study / Scenario

- Move from descriptive to "analytical".
- Present a specific challenge (e.g., a system failure or a scaling bottleneck).
- Show how the discussed technical topic provides a solution.

Slide 11: Discussion Points (Engagement)

- Provocative Questions: Raise 2–3 questions to "gauge full understanding" of the audience.
- Pros vs. Cons: Analyze the trade-offs of the technology.

Slide 12: Conclusion & Recommendations

- Summary of the most vital takeaways.
- Practical advice for IT professionals in the field.

Slide 13/14: References/Tables

- Use APA 7th edition format.

D. Submit the group technical report via Canvas. Non-reporting groups must email their peer reviews to raquel.marasigan@dlsu.edu.ph by the end of the day.

E. List of Group Beadles [<Link> to group directory](#)

<u>CHUA ENZO MONIEL BRENT GALANG</u>	Group 1
<u>ANTOLIAHAO PHILIP MARTIN UY</u>	Group 2
<u>REYES FRANCIS HANS FIGURO</u>	Group 3
<u>NAZARIO CLARISSE ANOB</u>	Group 4
<u>SANCHEZ SAMANTHA BREANNE AVILA</u>	Group 5

F. Rubrics for Group Technical Report – Intended for Group Technical Report

G. Rubrics for Group Technical Reaction – Intended for non-group technical Report
